PETROMIR BRAKE FLUID DOT 3&4

It is a premium-quality hydraulic brake fluid developed for automotive disc, drum, ABS brake systems, and clutch applications. It delivers stable and reliable performance even under extreme temperatures caused by braking friction.

USES

Suitable for use in automotive disc and drum brake systems, ABS braking systems, and hydraulic clutch applications operating under high-temperature and demanding driving conditions. Provides effective protection against corrosion, oxidation, and vapor lock while helping minimize fluid loss, leakage, and rubber component swelling.
